

Thank you for your tremendous response to "The Life of Abraham Lincoln by Thomas Kennedy" educational project! We are very excited at the level of interest thus far for the painting. While fundraising continues statewide, you can certainly insure that your school corporation (or schools) receives the painting by acquiring your own community partner to sponsor the project for the accredited school(s) in your area. Some ideas for fundraising would be contacting your local PTO organization, your school foundation, a township foundation if applicable, or making a contribution appeal to the private sector businesses that possess a working relationship with your schools. Examples of community partners could be. i.e., a contractor that has completed a renovation or addition to your school, a company providing communication, computer or transportation equipment, etc. Once you have acquired sponsorship, please contact us immediately! The initial ordering of the prints will be based on the first 500 requests sent to us, so to be insured that your school will be included in that first order of 500, please respond at your earliest convenience. In addition, the artist is planning personal appearances at as many of the first 500 recipient schools as possible.
